Professional Summary

Computer Science Engineering undergraduate at Pimpri Chinchwad University (CGPA: 8.86) with experience in full-stack development, artificial intelligence, cloud computing, and data engineering. Proficient in Python, React.js, Node.js, Flask, and AWS, with a track record of building scalable software solutions and leading technical initiatives through projects, internships, and institutional events.

Education

Pimpri Chinchwad University, Pune 2023 – 2027
Bachelor of Technology in Computer Science Engineering CGPA: 8.86

Kamalnayan Bajaj Higher Secondary School 2021 – 2023
Higher Secondary Certificate (HSC) 72.50%

Prajnanabodhini School 2020 – 2021
Secondary School Certificate (SSC) 93.00%

Technical Skills

- **Programming Languages:** Python, C, C++, JavaScript
- **Frontend Development:** React.js, HTML5, CSS3, Responsive Web Design
- **Backend Development:** Node.js, Express.js, Flask, REST APIs
- **Artificial Intelligence & NLP:** Natural Language Processing (NLP), Text Preprocessing, Tokenization, Language Modeling
- **Cloud Computing:** AWS Cloud Foundations, Cloud Concepts, Data Engineering Fundamentals
- **Data Analysis & Visualization:** Pandas, Matplotlib, Data Cleaning, Data Manipulation, Data Visualization
- **Tools & Platforms:** Git, GitHub, VS Code, IntelliJ IDEA, Canva
- **Core Concepts:** OOPS, Software Development Life Cycle (SDLC), Software Testing, Debugging, Problem Solving

Experience

Web Development Intern — Shizen Wrap Private Limited May 2026 – Aug 2026

- Contributing to website development and enhancement under the Digital Identity and Web Ecosystem Development Project.
- Developing responsive web interfaces and improving user experience.
- Collaborating with teams to implement scalable web solutions.
- Implementing frontend components, website integrations, deployment workflows, and production environment configurations.

Full-Stack Developer — EventSphere – Pimpri Chinchwad University 2026 – Present

- Designed and developed EventSphere, a full-stack event management platform built for the International Mastermind Meet (IM#).
- Engineered end-to-end application architecture covering responsive frontend development, backend services, REST API integration, database operations, and authentication workflows.
- Implemented reusable UI components, dynamic event modules, participant workflows, and administrative functionality to support event operations.
- Managed application deployment, hosting configuration, domain integration, and production environment setup for the live platform.

Data Engineering Virtual Intern — AICTE EduSkills (AWS Academy) Jul 2024 – Sep 2024

- Completed a 10-week internship focused on cloud computing and data engineering.
- Gained hands-on exposure to AWS services, cloud infrastructure, and data workflows.

Projects

TrustChain AI — Intelligent Document Verification System May 2026 – Present
FastAPI, React.js, MongoDB, OCR, Artificial Intelligence

- Developed an AI-powered document verification platform for automated validation and fraud detection.
- Implemented OCR-based text extraction and intelligent document classification.
- Engineered fraud-risk assessment and QR-based verification mechanisms.
- Built a scalable architecture supporting analytics and future AI integrations.

AquaMind — AI-Based Sustainable Cooling System for Data Centers Mar 2026 – Apr 2026
Artificial Intelligence, Data Analytics, Sustainability

- Developed an AI-powered cooling management system for data centers.
- Designed predictive analytics modules for cooling optimization.
- Achieved an estimated 32% reduction in water usage and 18% improvement in cooling efficiency.
- Aligned with SDG 6, SDG 9, SDG 12, and SDG 13 sustainability goals.

Leadership & Activities

- **Documentation Team Lead – IDEATHON 3.0** (Feb 2026 – Mar 2026): Managed event documentation, reporting, and milestone tracking for a 24-hour innovation event.
- **Documentation Team Lead – International Mastermind Meet (IM3)** (May 2026 – Jul 2026): Oversaw documentation, operational records, and event reporting for an international collaborative initiative.
- **Technical Team Core Member – VIBENITY 2025** (Oct 2025 – Nov 2025): Supported technical operations and participant management for a university event with 1,500+ participants.
- **Event Organizing Lead – PCU Explore Germany 2025**: Coordinated event operations and engagement activities with international academic representatives.

Certifications

- AWS Academy Graduate – AWS Academy Cloud Foundations
- IBM – Getting Started with Artificial Intelligence
- Coursera – Programming for Everybody (Python)
